

Youth Camp in Romania *Mountain Adventure*

Hiking, Climbing, Mountain-biking and Speleological Explorations,
Carpathian Mountains, July 21-28, 2007

Location & Program

The “Apuseni” (Western) Mountains are the most diverse mountain area in the Carpathians of Romania. The water erosion dug during thousands of years big caves and deep river gorges through the limestone, the main rock of these mountains. Big forests add much green to the landscape and provide shadowy paths for hiking. All these are great playgrounds for the mountain adventure lover!

In this camp you'll have the opportunity to learn and use speleologic techniques in exploring caves in the richest cave-region of Romania, learn and use climbing technique, hiking, mountain-biking and kayaking through impressive gorges and lovely mountain forests.
